Art Unit: 1775

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7, drawn to a glass composition, classified in class 501, subclass 72.
 - II. Claims 8-9, drawn to a method of forming a multilayer circuit board and the product, classified in class 427, subclass 96+.
 - III. Claims 14-15 & 17, drawn to a method of forming a green tape, classified in class 264, subclass 650.
 - IV. Claims 10-13, drawn to a ceramic circuit board, classified in class 428, subclass 210.
 - V. Claims 16 & 18, drawn to a method of forming a multilayer interconnection and the product made, classified in class 156, subclass 89.12.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III, IV and V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are: I is a glass composition; II, III and V are different method of making a ceramic wiring board; and IV is a ceramic wiring board.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1775

4. A telephone call was made to Atty: Rebecca Tulloch on August 09, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
